

Sundance State Bank is pleased to announce that we are offering bank customers **FREE ONLINE** cybersecurity training via **KnowBe4's** Customer Awareness Program (CAP) which can be completed in less than 60 min. The CAP was created to educate computer and mobile device users on the topics of: safe online banking, strong passwords, protecting identity/personal information, protecting children online, securing your computer/home network, spam, viruses, email phishing and more.

In today's world, we are more tech connected than ever before. It's important that we all stay informed and educated to the best of our abilities in order to maintain a safe internet experience for ourselves, families and friends. Don't become a victim of cybercrime. Take part in the free training today! Just call or stop in to provide us with a valid email address to get signed up.
