

FISERV, the creator of Mobiliti mobile banking applications, has made an announcement that beginning March 26, 2017 all Sundance State Bank apps will only support mobile devices using the latest operating systems with Transport Layer Security TLS v1.2.

Android phones using an operating system below **KitKat (Level 20)** may not be able to connect to the SSB mobile app. (Mobiliti)

Users with devices on **Android KitKat (Level 20)** and above will be able to connect to Mobiliti.

iPhones or iPad devices using an operating system below **iOS 8** may not be able to connect to the SSB mobile app. (Mobiliti)

Users with devices on **iOS 8** and above will be able to connect to Mobiliti.
